

*VILLAGE OF ROCHESTER, ILLINOIS*

*PHASE II NPDES STORM WATER PERMIT*

*INFORMATION TO INCLUDE IN THE NEXT WATER BILL*

With spring rains anticipated, be sure you are doing your part to help the Village of Rochester minimize our impact on the environment by following these seven easy steps to cleaner water:

1. Help keep pollution out of the street and storm drains, especially lawn waste.
2. Use reduced phosphorus fertilizer sparingly and with care.
3. Carefully store and dispose of household cleaners, chemicals and oils.
4. Clean up after your pet(s).
5. Practice good car care and maintenance.
6. Select earth friendly landscaping.
7. Practice water conservation measures.

To find out more about stormwater and ways to reduce your impact on the environment, see this link:
