

## **Village of Rochester Public Works Department**

### **Maintenance Worker Equipment Operator I**

The Village of Rochester Department of Public Works is seeking a person for a full-time maintenance position. This individual needs to live within 25 miles of the village, possess a high school diploma, a valid driver's license (willing to upgrade to a CDL) and possess basic mechanical and equipment use skills. Municipal experience in water distribution, sewer collection system, streets and/or other public works related skills are a plus. Other desired skills are general construction, electrical, plumbing, carpentry, grounds maintenance, equipment operation, and mechanical inclination.

Responsibilities of the position includes maintenance and repair of water distribution system, sewer collection system, storm sewer collection system, streets, snow removal, parks, village buildings and grounds, fleet and equipment, and emergency repairs of all village infrastructure.

Occasional night, weekend and holiday emergency work is required. You must be able to respond to emergency call outs within one hour, work in the outdoors during inclement weather conditions and have the ability to lift fifty pounds. You must follow safety work rules, be able to work independently and with others, follow verbal and written instructions, and conduct yourself in a professional manner at all times.

The Village of Rochester offers paid dental, vision, and health insurance for the employee, sick leave, personal leave, paid holidays, paid vacation and IMRF retirement.

Application forms are available at the Village of Rochester, #1 Community Drive, Rochester, Illinois or on our website [rochesteril.org](http://rochesteril.org).

The Village is an Equal Opportunity Employer and a Drug & Alcohol Free Work Place.

Applications must be submitted by May 26, 2017.
