

# Right-of-Way Construction Permit

## § 95.203

(D) Supplemental application requirements for specific types of utilities. In addition to the requirements of division (C) above, the permit application shall include the following items, as applicable to the specific utility that is the subject of the permit application:

- (1) In the case of the installation of a new electric power, communications, telecommunications, cable television service, video service or natural gas distribution system, evidence that any certificate of public convenience and necessity or other regulatory authorization that the applicant is required by law to obtain, or that the applicant has elected to obtain, has been issued by the ICC or other jurisdictional authority;
- (2) In the case of natural gas systems, state the proposed pipe size, design, construction class and operating pressures;
- (3) In the case of water lines, indicate that all requirements of the State Environmental Protection Agency, Division of Public Water Supplies, have been satisfied;
- (4) In the case of sewer line installations, indicate that the land and water pollution requirements of the State Environmental Protection Agency, Division of Water Pollution Control have been satisfied;
- (5) In the case of petroleum products pipelines, state the type or types of petroleum products, pipe size, maximum working pressure, and the design standard to be followed.

(E) Applicant's duty to update information. Throughout the entire permit application review period and the construction period authorized by the permit, any amendments to information contained in a permit application shall be submitted by the utility in writing to the village within 30 days after the change necessitating the amendment.

(F) Application fees. Unless otherwise provided by franchise, license or similar agreement, all applications for permits pursuant to this subchapter shall be accompanied by a base fee in the amount of \$100. Additional application review costs will vary with the complexity of the project and will be determined on a case by case basis and shall be paid prior to issuance of final permit. No application fee is required to be paid by any electricity utility that is paying the municipal electricity infrastructure maintenance fee pursuant to the Electricity Infrastructure Maintenance Fee Act.
